Vista, CA 92083

Dear Mr. Dils,

Thank you so much for coming to help me in my hour of need. Luis came on April 8, 2005 and said he found the problem and had fixed it. If we had a normal rain I don't think the roof would have leaked again. The rain came down too fast and too heavy. I hope I am long gone before we have another big one.

My family room flooded the same day and this was the third time I had rain come in this room. I paid a man to dig a ditch across the back of the house and down the south side. He put in a pipe and covered it with white rock. He did a good job but the rain still came in. That was the second rain we had.

I know a lot of people suffered a terrible loss to their property and I do feel sorry for all of them.

I thank you and your nice crew for all that you did for me. God Bless You.

Sincerely,
Eveline LaBerge
